Sharing knowledge and resources with employees and the local community

Sree Santhosh Exports is a clothing manufacturer in Tirupur, India. They are proud of their work to enhance the social wellbeing and prosperity of their employees as well as offering them first-class working conditions. They have been awarded several certifications due to their efforts to be sustainable and socially responsible including SA 8000 and Fair Trade FLO. Additionally, they are carbon neutral and use materials that adhere to the Global Organic Textile Standard (GOTS). Many of our cotton products are made here and the fabrics are sourced ethically from reputable growers in India and Africa. Every item of clothing made here is fully traceable and supports farmers and agricultural workers through the Fair Trade scheme. They also use the Zero LIQUID Discharge System which uses technology to treat 6,000,000 litres of water a day.
